### EXTENSION ACTIVITY REPORT

Name of Activity: we save our wasundhara

Year: 2022-2023

In Collaboration with/Department: NSS and Shree Swami Samarth Krushivibhag

**Date:**12/09/2022 and 8/12/2022

Chief Guest/Speaker: Dr Prerana Pramod Bhatkar

Number of Students& Teachers benefited -: 91+95=186

**Department: Chemistry** 

**Objectives: 1**) we save our wasundhara by various way

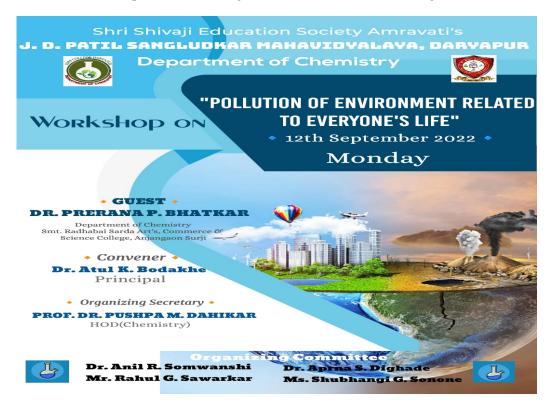

- 2) To control the soil and water pollution.
- 2) Important of Analysis of Water and Soil .
- 3) Awareness to avoid chemical fertilizer and pesticide.

**Brief Description of the Event:** Two programmes were conducted by Dr. Prerana Bhatkar under the extension activity.

- 1) One programme at J D PatilSangludkar College Daryapur on 12/09/2022 by delivering lectures on analysis of water and soil & remedies on pollution of the same. She explained the importance of analysis and how it will be carried out.
- 2) Another programm, workshop conducted on "Terrace farming" and "AmrutMati&AmrutJal". This techniques helps us to curb soil and control water pollution. And in the workshop she demonstrate the ability to grow healthy greens in earthen pots or disposed plastic wares. This provides us with a way to grow our own

food in very little space. Swami Samarth Krushivibhag' Anjangaon Surji on 08/12/2022.

**Programme Outcome:** Student and farmer became aware about the side effect of chemical fertilizer and chemical pesticides and health problem created by chemical fertilizers. Most of present farmers agreed to use bio fertilizer and organic fertilizer.
